Current development efforts have made Ceramic tiles to resemble and look authentically identical to natural materials (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between the tow.

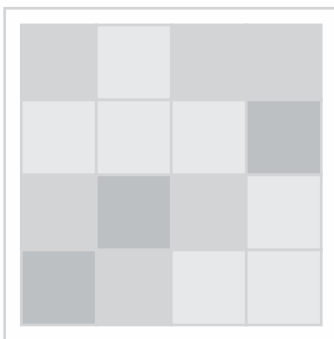

Recognizing this situation, it is necessary to be informed on the grade of Design & Pattern variation that is expected form these products. as a general reference the Design & Pattern guide below classifies a scale of ranges according to the degree of the variation.

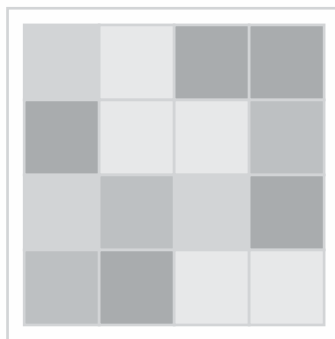

V1 Uniform Appearance

V2 Slight Variation

V3 Moderate Variation

V4 Substantial Variation

THE CLASSIFICATION IS AS FOLLOW:

V1 Minimal Variation **V2** Slight Variation **V3** Random Variation **V4** Substantial Variation
